

Combat Barks

Archer / Sniper

Sorry to put too fine a point on it!
Where *can't* I hit them?
When do I get my trophy?
Could you *be* an easier target?
Another hole-in-one!

Tank / Assault

Oh, sure, send me in first again.
I keep this on hand—for close encounters!
Helps to pretend I'll live more than once.
What's big, ugly, and a great shot? Me!
Who said you could shoot at me?

Bard / Healer

Don't forget to breathe!
Never gonna let you down!
Can't we eat, drink and be merry? No?
Oh, that'll need a stitch or three.
Don't shoot—I'm just the messenger!

Rogue / Infiltrator

En garde you ingrate!
What a darling spot for a trap.
Shh, the pain is temporary, friend.
You know, surrender *is* an option.
Where oh where is that weak spot?

Mage

Begone from this realm!
What's all that muscle worth now?
Let's still those wretched lips!
My will shall engulf yours!
Can't you at least pretend you're skilled?
